Day of Prayer for Marriage and Family Life

Wednesday 11th July Theme: Grandparents Grandparents today also fulfil a very important role in the **upbringing** of children and young people.

In many places we no longer have a strong system of extended family. Because of this the grandparents have an even more important part to play in the healthy growth of children.

They can be a very important source of **support** for the parents in their own relationship by enabling them to have time for each other.

They can have direct **personal contact** with each child and young person by spoiling them now and again. They can be a great source of **comfort** for each child or young person especially when one of these children needs someone to confide in.
